

YOUR FUTURE IN

Public Entity Insurance Risk Pooling

Local government insurance risk pools such as the League of Minnesota Cities Insurance Trust serve municipal governments in a variety of ways. We do not operate like commercial insurance carriers, where the priority is typically the bottom line. Our organization is member-owned and member-driven. We are unified in our commitment to assisting local government members with tackling their unique risk management and insurance coverage needs.

OUR ORGANIZATION:

- provides broad coverage – property, liability, auto, environmental, cybersecurity, employee benefits, medical, and workers compensation
- is financially secure
- employs innovative problem solvers

“LMC exists to make life better in all Minnesota cities – regardless of the situation, cities know they can reach out to us for solutions. I am proud to work for an organization that both benefits my community and values me as an essential part of the team.”

LEAGUE OF MN CITIES EMPLOYEE BENEFITS

- Competitive pay
- Great benefits
- Flexible work schedule, commuter benefits, wellness benefits
- Training and education opportunities
- Collaborative work environment
- Family-friendly work community
- Serve diverse local communities
- DEI Initiatives

CORE VALUES

.....

IMPACT

Make a difference in your state by helping local communities become safer, stronger, and healthier.

INDUSTRY

Gain technical insurance experience (ex. finance and investment strategy, reinsurance knowledge) while working for a public entity/non-profit/etc.

ADVOCACY

Work on the cutting edge of state and local issues such as law enforcement reform, housing, and mental health.

INNOVATION

Help members tackle unique insurance challenges by developing sustainable solutions.

GROWTH

Build your leadership skills, expand your network, and gain knowledge of issues impacting your community.
